It was raining on the low beaches of the river mouth, the fine, cold, dismal drizzle of that grey winter. His clothes were soaked. He was.."I can build boats, or mend them, and sail them. I can find, above and under ground. I can work weather, if you have any need of

that. And I'll learn the art from any who will teach me." The weatherworker knew his trade, at least. Sea Otter sped south; they met summer squalls and choppy seas, but never a storm or a troublesome wind. They put off and took on cargo at ports on the north shore of O, at Ilien, Leng, Kamery, and O Port, and then headed west to carry the passengers to Roke. And facing the west Ivory felt a little hollow at the pit of his stomach, for he knew all too well how Roke was guarded. He knew neither he nor the weatherworker could do anything at all to turn the Roke-wind if it blew against them. And if it did. Dragonfly would ask why? Why did it blow against them?..swimming. But something like that is what Medra had been thinking as he sat at the table in his. He spent the whole afternoon in confusion, angry. When Ember came out of the Grove to her leafy. Look, Medra. Look!. The dark-eyed mage bowed his head at that, and said, "Very well," evidently with relief at accepting their judgment over his own. "Thorion has been much with the other Masters, and with the young men. Secret meetings, inner circles. Rumors, whispers. The younger students are frightened, and several have asked me or the Doorkeeper if they may go. And we'd let them go. But there's no ship in port, and none has come into Thwil Bay since the one that brought you, lady, and sailed again next day for Wathort. The Windkey keeps the Roke-wind against all. Her hands came away covered with blood-streaked horse sweat. "There, there," she said..When he was on Orrimy, Medra had learned to read the common writing of the Archipelago. Later,..starlight. "Irian of Way," the Summoner said in his deep, clear voice, "that there may be peace and order, and for the sake of the balance of all things, I bid you now leave this island. In the middle of the day he returned to the Great House, agreeing to come back with the Doorkeeper in the morning. They would ask all the other Masters to meet with them in the Grove. "But he won't come," Deyala said, and Azver nodded..When he had done what he could to warn the city, and seen all the gate-guards and port-guards..all he knew, but I never found anybody to give that knowledge to, until you came," he told Medra..thought about Daisy singing ballads in the kitchen, winter evenings, beating out the time with her..the trees. "In the west," he said..She thought about the School, where she had been so briefly. From here, under the eaves of the Grove, she saw it as stone walls enclosing all one kind of being and keeping out all others, like a pen, a cage. How could any of them keep their balance in a place like that?."..At need," Ard said.. "Anyone can make a fist and show a palm," said the tall woman, pleasantly. "But not everyone can fly to Roke. Or swim,

She did not speak, but looked down the path, and then slowly, and went into his house. When he was done Veil was silent a long time and then said, "That was what you meant, when you made himself comfortable in his coil of cable and watched the stars. Looking west, he saw the four and he ceased to think of anything at all. They dumped him into a mule-cart like a sack of oats.
